 Saint Pierre, Reunion

Soft Skills

- Team collaboration
- Problem solving
- Adaptability
- Perseverance

Certifications

- ANSSI MOOC
- EF SET (B2/C1)

Interests

- Sports
- Technology
- Video Games

Languages

- English (C1 level)
- French

Rohan ALAMELOU

Cybersecurity Network Student – Seeking 3-Month Internship in cybersecurity

Technical Skills

Cybersecurity

- Network defense, Pentesting (CTFs), WAF (NGINX), IDS/IPS, Burp Suite, Kali Linux

Networking

- VLANs, OSPF, BGP, DHCP, DNS, MPLS, Firewall (Stormshield, OPNsense)

Monitoring

- Grafana, Wazuh, Log management

Virtualization & Systems

- Linux (Debian, Kali), Windows Server AD/DNS, VirtualBox

Experiences

Cybersecurity & Network group project

2023 – 2025

- Designed and deployed a secure network infrastructure with VLAN segmentation, DNS, DHCP, and Active Directory
- Built and maintained a complete SIEM monitoring platform (Wazuh + Grafana) to analyze container metrics.
- Configured and tested NGINX WAF on OPNsense, forwarding real-time logs to Wazuh for threat detection.
- Participated in Capture The Flag (CTF) challenges to enhance offensive and forensic cybersecurity skills.

Intern – Telecommunication & network Infrastructure

- Collaborated with IT teams to document and secure VoIP communications.
- Strengthened understanding of network security principles and infrastructure management.
- Supervised and monitored network and telecommunication equipment to ensure availability.
